Introduction

In Idaho, charter schools operate under contract terms specified in a Performance Certificate, which is agreed upon by the school's board and its authorizer, as outlined in I.C. §33-5205B. Each Performance Certificate includes a performance framework that outlines the expectations the school must meet to be granted a subsequent operational term. The annual performance report, based on this framework, serves the following purposes:

- To provide transparent information about charter school quality to the public;
- To ensure that charter school boards have clear expectations;
- To inform mid-term authorizing decisions.

The Idaho Public Charter School Commission (IPCSC) must assess whether the school's performance represents a favorable return on public funds. The IPCSC also considers the school's performance in comparison to other educational options available to families. The data in this report are derived from the previous fiscal year and summarize the outcomes of the school's last year of the contract term for those schools that are up for renewal.

If the performance standards are met, strategic planning may focus on the data points that will establish and sustain a high-performing school. If a standard is not met, the school should focus its strategic planning on improving outcomes to secure a subsequent operational term.

Please see the [Performance Framework](#) rubrics for details regarding how each measure is rated.

RENEWAL (I.C. §33-5209A)

At the conclusion of the operating term, the performance certificate of each school is reviewed for renewal. Charters may be renewed for successive terms. An authorizer can grant renewal with specific written conditions aimed at improving the public charter school, along with a deadline for meeting these conditions. In making renewal decisions, every authorizer must base its choices on evidence of the school's performance during the term of the performance certificate.

If a public charter school has fulfilled all terms of its performance certificate, the authorizer shall renew the charter for a period of twelve years, or six years in the case of a pilot charter. Conversely, if the school has not met one or more of the requirements, the authorizer may either renew for a six-year term or choose not to renew the charter.

School Overview

School's Operating Term

In 2023, Idaho Virtual Academy was renewed for operations with a five-year operating contract. The current certificate term is from July 1, 2023 to June 30, 2028. This report directly impacts the school's renewal recommendation. Renewal decisions must be made prior to March 15th, 2028.

School Details

Model: Virtual and Virtual Alternative

Enrollment Capacity: unlimited

2023 – 2024 Enrollment: 1960

Grades Served: K – 12th Grade

Key Design Elements:

- **Innovative and Effective Educational Program:** Idaho Virtual Academy seeks to develop those qualities of mind and character that will help students become active, thoughtful, and responsible citizens. Furthermore, it aims to help students meet high expectations by offering an individualized, rigorous, self-paced, and mastery-based instructional program that incorporates significant parental involvement. This can be measured via observation and lesson plans.
- **Rigorous Curriculum:** Idaho Virtual Academy utilizes the award winning K12 curriculum. This can be measured via curriculum review.
- **Effective Teachers:** Idaho Virtual Academy is committed to employing highly qualified, innovative and committed teachers. Professional growth is supported through meaningful professional development focused on continuous improvement. This can be measured via observation and staff interviews.
- **Parental Involvement:** When parents become active and informed partners in their child's education, test scores rise, drop-out rates fall, and the active pursuit of learning becomes a compelling focus for each family. This can be measured via policy review.
- **Partnership:** Teachers, parents and students uniquely connected in a 21st Century Learning Community designed to support and enhance individual student learning. This can be measured via observation and policy review.

- 21st Century Skills: Students will gain the skills, knowledge and expertise to succeed in work and life in the 21st century. This can be measured via observation and curriculum review.
- Performance based accountability: IDVA uses technology to alter the typical school day and school year. Mastering curriculum early allows students to move ahead and those who need extra time or remediation are able to work at an individualized pace. Student mastery of State achievement standards is measured through formative and interim assessment throughout the school year and, additionally, at the end of each school year through the state assessment system. This can be measured via observation, data analysis, and curriculum review.

2023-2024 Operational Outcomes

Board Governance

At the highest level, the success of a charter school is driven by the ability of its governing board to govern effectively. The measures in this section help identify the strengths and challenges faced by the school's board.

Measure	Rating	Rubric Description
Governance Structure	Meets Standard	No Issues
Governance Oversight	Meets Standard	No Issues

Management

The systems and structures that support school operations are an important part of the school's overall success. The measures in this section help identify the strengths and challenges that impact the school's day-to-day operations.

Measure	Rating	Rubric Description
Student Services	Meets Standard	No Issues
Data Security and Information Transparency	Meets Standard	No Issues
Facility and Services	Meets Standard	No Issues

2023-2024 Financial Outcomes

Near Term Measures

These measures evaluate whether a school is likely to meet its financial obligations in the next year. Data sources include but are not limited to the school's fiscal audit, state agency reporting, and school reporting requirements.

Measure	Value	Rating	Rubric Description
Default	NONE	Exceeds Standard	The school has met standard for at least 3 consecutive years, including the most recently completed school year.

Default

Default occurs when a school fails to meet its financial obligations, such as late bill payments, missed payroll, inaccurate funding reports, or failing to meet lender requirements like enrollment targets or cash reserves. Any default can lead to service disruptions, loans being called due, or withheld funding.
